ITEM 1. MANAGEMENT REPORT ON THE INTERIM FINANCIAL RESULTS AS OF JUNE 30, 2016 (UNAUDITED)

The following should be read in connection with the disclosure contained in the consolidated financial statements as of December 31, 2015, which includes a discussion of risks and uncertainties that can influence the Group's operational results or financial position. During the first six months of 2016, there were no changes to risks that were reported as of December 31, 2015.

The Group's reporting currency for the presentation of the Consolidated Financial Statements is the Euro. Unless otherwise specified, the figures in the statements and within the Notes to the Consolidated Financial Statements are expressed in thousands of Euro.

1. OPERATING PERFORMANCE FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2016

Net sales increased from Euro 4,666.7 million in the first six months of 2015 to Euro 4,719.4 million in the first six months of 2016 (1.1 percent at current exchange rates and 3.5 percent at constant exchange rates⁽¹⁾). Net sales in the first six months of 2016 decreased by Euro 33.0 million or 0.7% as compared to Adjusted net sales⁽²⁾ of Euro 4,752.5 million in the first six months of 2015. At constant exchange rates⁽¹⁾ net sales increased by Euro 75.6 million or 1.6%. Adjusted net sales were impacted, starting from July 1, 2014, by the modification of an EyeMed reinsurance agreement with an existing underwriter whereby the Company assumes less reinsurance revenues and less claims expense. The impact of this contract for the six-month period ended June 30, 2015 was a reduction in net sales with a corresponding reduction in cost of sales of Euro 85.8 million (the "EyeMed Adjustment"). Effective January 1, 2016, the Group's managed vision care business modified the terms of this reinsurance agreement with an existing underwriter whereby the Group will assume more reinsurance revenue and claims expense.

The Group's results in the first six months of 2016 was impacted by the strengthening of certain currencies in which it operates against the Euro.

Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA")⁽³⁾ in the first six months of 2016 decreased by 5.2 percent to Euro 1,037.1 million from Euro 1,094.2 in the first six months of 2015.

Adjusted Earnings before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA")⁽³⁾, which in the first six months of 2016 excludes restructuring and reorganization costs of Euro 24.7 million and non-recurring expenses of Euro 43.9 million related to the departure of Adil Mehboob-Khan as CEO for Markets, expenses related to Oakley integration and to the accrual for the French anti-trust proceeding, and in first six months of 2015 excludes non-recurring expense related to Oakley integration and other minor projects for Euro 20.4 million, decreased by Euro 9.1 million or 0.8 percent, to Euro 1,105.6 million from Euro 1,114.7 in the first six months of 2015.

⁽¹⁾ We calculate constant exchange rates by applying to the current period the average exchange rates between the Euro and the relevant currencies of the various markets in which we operated during the six-month period ended June 30, 2015. Please refer to Attachment 1 for further details on exchange rates.

⁽²⁾ For a further discussion of adjusted net sales, see Appendix—"Non-IFRS Measures."

⁽³⁾ For a further discussion of EBITDA and adjusted EBITDA, see Appendix—"Non-IFRS Measures."

Operating income for the first six months of 2016 decreased by 8.2 percent to Euro 788.1 million from Euro 858.5 million during the same period of the previous year. The Group's operating margin decreased to 16.7 percent from 18.4 percent in 2015.

Adjusted operating income⁽⁴⁾ for the first six months of 2016 decreased by 2.5 percent to Euro 856.6 million compared to adjusted operating income⁽⁴⁾ for the same period in 2015 of Euro 878.9 million. The Group's adjusted operating margin⁽⁵⁾ decreased from 18.5 percent in 2015 to 18.2 percent in 2016.

In the first six months of 2016, net income attributable to Luxottica Stockholders decreased by 5.8 percent to Euro 475.7 million from Euro 505.1 million in the same period of 2015. Earnings per share ("EPS") was Euro 0.99.

In the first six months of 2016, adjusted net income attributable to Luxottica Stockholders⁽⁶⁾ increased by 1.3 percent to Euro 531.5 million from Euro 524.7 million in the comparable period in 2015. Adjusted earnings per share⁽⁷⁾ ("Adjusted EPS") was Euro 1.11.

Careful control of our working capital resulted in strong free cash flow⁽⁸⁾ generation equal to Euro 403 million. Net debt⁽⁹⁾ as of June 30, 2016 was Euro 1,126.6 million (Euro 1,005.6 million at the end of 2015), with a ratio of net debt to EBITDA⁽⁹⁾ of 0.6x (0.5x as of December 31, 2015).

2. SIGNIFICANT EVENTS DURING THE SIX-MONTH PERIOD ENDED JUNE 30, 2015

January

On January 29, 2016, Mr. Adil Mehboob-Khan ceased as a Director of the Company and as the Group's CEO for Markets. At the same time, the Board of Directors approved a modification to the governance structure by assigning responsibility for Markets to Mr. Leonardo Del Vecchio, the Company's Chairman of the Board of Directors and majority shareholder, as Executive Chairman. Massimo Vian continues in his role as CEO for Product and Operations assisting the Executive Chairman.

On February 11, 2016, the Company and Galeries Lafayette, the French market leader in department stores for fashion and event shopping, signed an agreement to roll out the Sunglass Hut retail concept in 57 Galeries Lafayette and BHV MARAIS department stores across France. The first locations opened in February 2016. The full roll-out is expected to be completed by the end of 2016.

3. FINANCIAL RESULTS

We are a market leader in the design, manufacture and distribution of fashion, luxury, sport and performance eyewear, with net sales reaching over Euro 8.8 billion in 2015, approximately 79,000 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and (ii) retail distribution. See Note 5 of the Notes to the Consolidated Financial Statements as of June 30, 2016 for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of proprietary and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, OPSM, Pearle Vision, Laubman & Pank, Oakley "O" Stores and Vaults, David Clulow, GMO and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through these acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated to an average exchange rate of Euro 1.00 = U.S. \$1.1159 in the first six months of 2016 from Euro 1.00 = U.S. \$1.1158 in the first six months of 2015. With the acquisition of OPSM and other businesses, our results of operations have been rendered more susceptible to currency fluctuations between the Euro and the Australian Dollar. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan could impact the demand of our products or our consolidated profitability. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein. The Group does not engage in long-term hedging activities to mitigate translation risk. This discussion should be read in conjunction with the risk factor discussion in Section 8 of the Management Report included with the 2015 Consolidated Financial Statements.

In order to represent the Group's operating performance on a consistent basis in this Management Report, net sales and operating expenses as represented in the Group's Consolidated Financial Statements have been adjusted in the tables below to take into account the following events:

In the first six months of 2016 the Group incurred:

- restructuring and reorganization costs for Euro 24.7 million;
- non-recurring expenses for Euro 43.9 million related to the departure of Adil Mehboob-Khan as CEO for Markets, expenses related to the Oakley integration and to the accrual for the French anti-trust proceeding;

In the first six months of 2015:

- impact of the EyeMed Adjustment (as defined above) equal to Euro 85.8 million;
- non-recurring expenses related to the Oakley integration and other minor projects of Euro 20.4 million.

Net Sales. Net sales increased by Euro 52.7 million, or 1.1% to Euro 4,719.4 million in the first six months of 2016 from Euro 4,666.7 million in the same period of 2015. Euro 90.2 million of the increase, attributable to the retail distribution segment, was partially offset by a decrease of Euro 37.5 million in the wholesale distribution segment. The weakening of certain currencies in which we conduct business resulted in a decrease in net sales of Euro 108.6 million. Adjusted net sales⁽¹⁰⁾ for the six-month period in 2015, which included the EyeMed Adjustment of Euro 85.8 million, were Euro 4,752.5 million.

⁽¹⁰⁾ For a further discussion of adjusted net sales, see Appendix—"Non-IFRS Measures."

Please find the reconciliation between adjusted⁽¹⁰⁾ net sales and net sales in the following table:

(Amounts in million of Euro)	June 30, 2016	June 30, 2015
Net sales	4,719.4	4,666.7
> EyeMed Adjustment	—	85.8
Adjusted net sales	4,719.4	4,752.5

Net sales for the retail distribution segment increased by Euro 90.2 million, or 3.4%, to Euro 2,749.0 million in the first six months of 2016 from Euro 2,658.8 million in the same period of 2015. The increase in net sales for the period was partially attributable to a 0.6% increase in comparable store⁽¹¹⁾ sales. The effects from currency fluctuations between the Euro, which is our reporting currency, and the other currencies in which we conduct business, in particular the weakening of the Australian dollar and the British pound compared to the Euro, decreased net sales in the retail distribution segment by Euro 49.0 million.

Adjusted net sales⁽¹⁰⁾ for the retail division in the first six months of 2015, which included the Eyemed Adjustment of Euro 85.8 million, were Euro 2,744.6 million.

Please find the reconciliation between adjusted⁽¹⁰⁾ net sales of the retail division and net sales of the retail division in the following table:

(Amounts in millions of Euro)	June 30, 2016	June 30, 2015
Net sales of the retail division	2,749.0	2,658.8
> EyeMed Adjustment	—	85.8
Adjusted net sales of the retail division	2,749.0	2,744.6

Net sales to third parties in the manufacturing and wholesale distribution segment decreased in the first six months of 2016 by Euro 37.5 million, or 1.9%, to Euro 1,970.4 million from Euro 2,007.9 million in the same period of 2015. The decrease in sales was impacted by the reduction in net sales of some of our proprietary brands, in particular Ray-Ban and Oakley and by certain designer brands including Prada. This decrease occurred in most geographic areas in which the Group operates. The reduction was also driven by negative currency fluctuations, in particular the weakening of the Australian dollar, British pound and Brazilian real compared to the Euro, which decreased net sales in the wholesale distribution segment by Euro 59.7 million.

In the first six months of 2016, net sales in the retail distribution segment accounted for approximately 58.2% of total net sales, as compared to approximately 57.0% of total net sales in the same period of 2015.

In the first six months of 2016 and 2015, net sales in our retail distribution segment in the United States and Canada comprised 79.5% and 78.5%, respectively, of our total net sales in this segment. In U.S. dollars, retail net sales in the United States and Canada increased by 5.2% to U.S. \$ 2,448.3 million in the first six months of 2016 from U.S. \$ 2,327.6 million in the same period of 2015. During the first six months of 2016, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 20.5% of our total net sales in the retail distribution segment and slightly decreased by 1.4% to Euro 564.6 million in the first six months of 2016 from Euro 572.8 million, or 21.5% of our total net sales in the retail distribution segment, in the same period of 2015.

⁽¹¹⁾ Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

In the first six months of 2016, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 833.3 million, comprising 42.3% of our total net sales in this segment, compared to Euro 815.8 million, or 40.6% of total net sales in this segment in the same period of 2015, increasing by Euro 17.5 million or 2.1% in 2016 as compared to the same period of 2015. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$623.6 million and comprised 27.5% of our total net sales in this segment in the first six months of 2016, compared to U.S. \$634.0 million, or 28.3% of total net sales in this segment, in the same period of 2015. The decrease in net sales in the United States and Canada was primarily due to the reduction in net sales of certain of our proprietary brands including Oakley. In the first six months of 2016, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 582.9 million, comprising 29.6% of our total net sales in this segment, compared to Euro 623.9 million, or 31.1% of our net sales in this segment, in the same period of 2015, with a decrease of 6.6%, as of June 30 2016 as compared to the same period of 2015.

Cost of Sales. Cost of sales increased by Euro 144.5 million, or 9.8%, to Euro 1,620.6 million in the first six months of 2016 from Euro 1,476.1 million in the same period of 2015. As a percentage of net sales, cost of sales was 34.3% and 31.6% in the first six months of 2016 and 2015, respectively. The increase in cost of sales on net sales is due to the combined effect of the change of the product mix and to the price harmonization that occurred in 2016. In the first six months of 2016, the average number of frames produced daily in our facilities was approximately 353,000 in line with the same period of 2015.

Adjusted cost of sales⁽¹²⁾ which excludes in the first six months of 2016 reorganization and restructuring expenses of Euro 8.6 million and non-recurring expenses of Euro 0.1 million, and includes in the first six months of 2015 the EyeMed adjustment equal to Euro 85.8 million, was Euro 1,611.9 million and Euro 1,561.9 million, respectively.

Please find the reconciliation between adjusted cost of sales⁽¹²⁾ and cost of sales in the following table:

(Amounts in millions of Euro)	June 30, 2016	June 30, 2015
Cost of sales	1,620.6	1,476.1
> Eyemed Adjustment		85.8
> Non-recurring expenses	(0.1)	—
> Restructuring and reorganization expenses	(8.6)	—
Adjusted cost of sales	1,611.9	1,561.9

Gross Profit. Our gross profit decreased by Euro 91.8 million, or 2.9%, to Euro 3,098.8 million in the first six months of 2016 from Euro 3,190.6 million in the same period of 2015. As a percentage of net sales, gross profit decreased to 65.7% in the first six months of 2016 from 68.4% in the same period of 2015.

Operating Expenses. Total operating expenses decreased by Euro 21.3 million, or 0.9%, to Euro 2,310.8 million in the first six months of 2016 from Euro 2,332.1 million in the same period of 2015. As a percentage of net sales, operating expenses decreased to 49.0% in the first six months of 2016 from 50.0% in the same period of 2015. The reduction is primarily driven by general and administrative expenses which decreased by Euro 27.9 million as a result of the cost-savings actions put in place by the Group in the first six month of 2016.

Adjusted operating expenses⁽¹³⁾, excluding for 2016 (i) restructuring and reorganization expenses for Euro 16.0 million, and (ii) non-recurring expenses of Euro 43.8 million related to the departure of Adil Mehboob-Khan as CEO for Markets, expenses related to the Oakley integration and to the accrual for the

French anti-trust proceeding, and for 2015 non-recurring expenses related to the Oakley integration and other minor projects for Euro 20.4 million, decreased by Euro 60.7 million to Euro 2,251.0 million, or 47.7% on net sales, as compared to Euro 2,311.7, or 48.6% on adjusted net sales⁽¹⁰⁾.

Operating expenses	2,310.8	2,332.1
> Restructuring and reorganization expenses	(16.0)	—
> Non-recurring expenses	(43.8)	(20.4)
Adjusted operating expenses	2,251.0	2,311.7

Selling and advertising expenses (including royalty expenses) increased by Euro 6.9 million, or 0.4%, to Euro 1,799.6 million in the first six months of 2016 from Euro 1,792.7 million in the same period of 2015. Selling expenses increased by Euro 31.0 million, or 2.2%. Advertising expenses decreased by Euro 23.1 million, or 7.6%. Royalties decreased by Euro 1.0 million, or 1.1%. As a percentage of net sales selling and advertising expenses were 38.1% and 38.4% in the first six months of 2016 and 2015, respectively.

Adjusted selling and advertising expenses⁽¹⁴⁾ (including royalty expenses), excluding for 2016 restructuring and reorganization expenses of Euro 3.6 million and non-recurring expenses of Euro 0.3 million, increased by Euro 3.0 million to Euro 1,795.7 million as compared to selling and advertising expenses of Euro 1,792.7 million in 2015. As a percentage of net sales adjusted selling and advertising expenses⁽¹⁴⁾ were 38.0% in the first six month of 2016. As a percentage of adjusted net sales⁽¹⁰⁾ selling and advertising expenses were 37.7% in the first six months of 2015.

Please find the reconciliation between adjusted selling and advertising expenses⁽¹⁴⁾ and selling and advertising expenses in the following table:

> Non recurring expenses	(0.3)	—
> Restructuring and reorganization expenses	(3.6)	—
Adjusted Selling and advertising expenses	1,795.7	1,792.7

General and administrative expenses, including intangible asset amortization, decreased by Euro 28.2 million, or 5.2%, to Euro 511.2 million in the first six months of 2016, as compared to Euro 539.4 million in the same period of 2015. As a percentage of net sales, general and administrative expenses were 10.8% in the first six months of 2016 as compared to 11.6% in the same period of 2015. The decrease is mainly due to the cost-savings actions put in place by the group in the first six month of 2016.

Adjusted general and administrative expenses⁽¹⁵⁾, including intangible asset amortization and excluding for 2016 restructuring and reorganization expenses of Euro 12.3 million and non-recurring expenses of Euro 43.5 million related to the departure of Adil Mehboob-Khan as CEO for Markets, expenses related to the Oakley integration and to the accrual for the French anti-trust proceeding, and for 2015 the non-recurring expenses related to the Oakley integration and other minor projects for

Interest paid was Euro (52.2) million as compared to Euro (63.6) million in the first six months of 2016 and 2015, respectively. The decrease is mainly due to the repayment of long term debt due in the second half of 2015.

In the first six months of 2016, non-current assets decreased by Euro 38.0 million, mainly due to a decrease in intangible assets (including goodwill) of Euro 120.4 million and a decrease in other assets of Euro 4.0 million and it is partially offset by an increase in property, plant and equipment of Euro 68.2 million and an increase in deferred tax assets of Euro 17.3 million.

The decrease in intangible assets (including goodwill) was due to the negative effects of foreign currency fluctuations of Euro 61.7 million and to amortization in the period of Euro 109.1 million which were partially offset by the additions in the period of Euro 51.5 million.

The increase in property, plant and equipment was due to the additions in the period of Euro 233.3 million and was partially offset by the negative currency fluctuation effects of Euro 18.0 million as of June 30, 2015 compared to December 31, 2015, and depreciation in the period of Euro 139.8 million.

- Current taxes payable increased by Euro 203.7 million due to the timing of tax payments made by the Group in various jurisdictions;
- Employee benefits increased by Euro 74.3 million which was primarily due to the reduction of interest rates used to discount the liability; and
- Short-term risk provision for risks and other charges increased by Euro 36.5 million mainly due to the accrual for the French anti-trust proceeding.

(Amounts in thousands of Euro)	June 30, 2016	December 31, 2015

Bank overdrafts consist of the utilized portion of short-term uncommitted revolving credit lines borrowed by various subsidiaries of the Group. The interest rate applied to these credit lines depends on the currency and is usually floating.

The interest rate is a floating rate of EURIBOR plus a margin on average of approximately 30 basis points. At June 30, 2016, Euro 50.0 million was utilized under these credit lines.

As of June 30, 2016, our wholly-owned subsidiary Luxottica U.S. Holdings Corp. maintained unsecured lines of credit with an aggregate maximum availability of Euro 112.5 million (USD 124.9 million

converted at the applicable exchange rate for the period ended June 30, 2016). The interest is at a floating rate of approximately LIBOR plus 50 basis points. At June 30, 2016, these credit lines were not utilized but Euro 45.8 million in aggregate face amount of standby letters of credit were outstanding as of period end.

4. RELATED PARTY TRANSACTIONS

Our related party transactions are neither atypical nor unusual and occur in the ordinary course of our business. Management believes that these transactions are fair to the Company. These transactions are managed as arms-length market transactions. For further details regarding related party transactions, please refer to Note 29 of the Notes to the Consolidated Financial Statements as of June 30, 2016.

On January 29, 2013 the Company elected to avail itself of the options provided by Article 70, Section 8, and Article 71, Section 1- bis, of CONSOB Issuers' Regulations and, consequently, will no longer comply with the obligation to make available to the public an information memorandum in connection with transactions involving significant mergers, spin-offs, increases in capital through contributions in kind, acquisitions and disposals.

5. SUBSEQUENT EVENTS

For further details regarding any subsequent events, please refer to Note 35 to the Condensed Consolidated Financial Statements as of June 30, 2016.

6. 2016 OUTLOOK

The second quarter results, along with increasing uncertainty in many markets, lead management to assume a more cautious outlook for the second half of the year. The Group is therefore revising its expectations for the full-year 2016 as follows: sales growth to increase in the range of 2-3% at constant exchange rates; adjusted operating income⁽⁴⁾ and adjusted net income⁽⁶⁾ aligned to net sales growth; and the Group's net debt/adjusted EBITDA ratio to fall within a range of 0.5x-0.4x.

APPENDIX

NON-IFRS MEASURES

Adjusted measures

In this Management Report we refer to certain performance measures that are not in accordance with IFRS. Such non-IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IFRS measures are explained in detail and reconciled to their most comparable IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

In the first six months of 2016, we made adjustments to the following measures: cost of sales, selling expenses, general and administrative expenses, EBITDA, operating income, income taxes, net income and earnings per share. We adjusted the above items for (i) restructuring and reorganization costs of Euro 24.7 million (Euro 16.4 million net of taxes), and (ii) non-recurring expenses of Euro 43.9 million (Euro 39.4 million net of taxes) related to the departure of Adil Mehboob-Khan as CEO for Markets, expenses related to the Oakley integration and to an accrual for the French anti-trust proceeding.

In the first six months of 2015, we made adjustments to the following measures: net sales, cost of sales, general and administrative expenses, EBITDA, operating income, income taxes, net income and earnings per share. We adjusted the above items for the modification of the EyeMed reinsurance agreement referenced above with an impact for the six-month period ended June 30, 2015 equal to Euro 85.8 million (the “EyeMed Adjustment”) and for the non-recurring expenses related to the Oakley integration and other minor projects of Euro 20.4 million (Euro 19.6 million net of tax).

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board and endorsed by the European Union. The Group believes that these adjusted measures are useful to both management and investors in evaluating the Group’s operating performance compared with that of other companies in its industry in order to provide a supplemental view of operations.

Non-IFRS measures such as EBITDA, EBITDA margin, free cash flow and the ratio of net debt to EBITDA are included in this Management Report in order to:

- improve transparency for investors;
- assist investors in their assessment of the Group’s operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;
- assist investors in their assessment of the Group’s cost of debt;
- ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;
- properly define the metrics used and confirm their calculation; and
- share these measures with all investors at the same time.

See the tables below for a reconciliation of the adjusted measures discussed above to their most directly comparable IFRS financial measures. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the pages following the tables below (Amounts in millions of Euro):

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interests, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared to that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing in our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group. For additional information on the Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES—*Adjusted Measures*" set forth above.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

- EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;
- EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and amortization expense may have material limitations;
- EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

- EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage. The following table provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure, as well as the calculation of EBITDA margin on net sales:

The impact of the contract for the twelve-month period ended December 31, 2015 was Euro 174.3 million, for the six month-period ended June 30, 2015 was Euro 85.8 million. Starting from January 1, 2016 Eyemed modified the terms of the reinsurance agreement and is, therefore, recognizing more reinsurance revenues and more claims expense;
- (2) Exclude restructuring and reorganization expenses of Euro 24.7 million (Euro 16.4 million net of taxes) for the six month-period ended June 30, 2016;
- (3) Exclude in 2016 the non-recurring expenses of Euro 43.9 million (Euro 39.4 million net of taxes) related to the departure of Adil Mehboob-Khan as CEO for markets, expenses related to the Oakley integration and the accrual of the French antitrust proceeding;
- (4) Exclude for 2015 non-recurring expenses related to the Oakley integration and other minor projects of Euro 66.4 million (Euro 49.8 million net of taxes) for the twelve-month period ended December 31, 2015, and Euro 20.4 million (Euro 19.6 million net of taxes) for the six month-period ended June 30, 2015.

Free Cash Flow

Free cash flow represents EBITDA, as defined above, plus or minus the decrease/(increase) in working capital over the period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. Our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities. For additional information on Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES—*Adjusted Measures*" set forth above.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, this non-IFRS measure should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that this measure is not a defined term under IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

- The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;
- Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and
- Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure:

Non-IFRS Measure: Free cash flow

(Amounts in millions of Euro)	1H 2016
Adjusted EBITDA⁽¹⁾	1,105.6
Δ working capital	(295.5)
Capex	(284.7)
Operating cash flow	525.4
Financial charges ⁽²⁾	(33.0)
Taxes	(88.9)
Other—net ⁽³⁾	(0.8)
Free cash flow	402.7

⁽¹⁾ EBITDA is not an IFRS measure; please see table above for a reconciliation of EBITDA to net income.

⁽²⁾ Equals interest income minus interest expenses.

⁽³⁾ Equals extraordinary income minus extraordinary expenses.

Net debt to EBITDA ratio

Net debt represents the sum of bank overdrafts, the current portion of long-term debt and long-term debt, less cash. The ratio of net debt to EBITDA is a measure used by management to assess the Group's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and the ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group. For additional information on Group's non-IFRS measures used in this report, see "NON-IFRS MEASURES—Adjusted Measures" set forth above.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Group recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations. The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the table on the earlier page.

Through its manufacturing and wholesale distribution operations, the Group is engaged in the design, manufacturing, wholesale distribution and marketing of proprietary brands and designer lines of mid- to premium-priced prescription frames and sunglasses, as well as of performance optics products.

The Company is controlled by Delfin S.a r.l., a company subject to Luxembourg law. The chairman of the Board of Directors of the Company, Leonardo Del Vecchio, controls Delfin S.a r.l.

The Company’s Board of Directors, at its meeting on July 25, 2016, approved the Group’s interim condensed consolidated financial statements as of June 30, 2016 (hereinafter referred to as the “Financial Report”) for publication.

The financial statements included in this Financial Report are unaudited.

2. BASIS OF PREPARATION

This Financial Report as of June 30, 2016 has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 of February 24, 1998 and subsequent modifications and in accordance with the CONSOB Issuers Regulation in compliance with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and endorsed by the European Union in accordance with the regulation (CE) n. 1606/2002 of the European Parliament and of the Council dated July 19, 2002. Furthermore, this Financial Report has been prepared in accordance with International Accounting Standard (“IAS”) 34—*Interim Financial Reporting*, and of the provisions which implement Article 9 of Legislative Decree no. 38/2005.

IFRS are all the international accounting standards (“IAS”) and all the interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), previously named the Standing Interpretation Committee (“SIC”).

This Financial Report as of June 30, 2016 should be read in connection with the consolidated financial statements as of December 31, 2015 which were prepared in accordance with IFRS, as endorsed by the European Union.

In accordance with IAS 34, the Group has chosen to publish a set of condensed financial statements in its financial report as of June 30, 2016.

The principles and standards used in the preparation of this unaudited Financial Report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2015 except

**Notes to the
CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
AS OF JUNE 30, 2016**

2. BASIS OF PREPARATION (Continued)

as described in Note 3 “New Accounting Principles” and taxes on income which are accrued using the tax rate that would be applicable to projected total annual profit.

This Financial Report has been prepared on a going concern basis. Management believes that there are no indicators that may cast significant doubt upon the Group’s ability to continue as a going concern, in particular, over the next twelve months.

This Financial Report is composed of the Consolidated Statements of Financial Position, the Consolidated Statements of Income, the Consolidated Statements of Comprehensive Income, the Consolidated Statements of Changes in Equity, the Consolidated Statements of Cash Flows and Notes to the Condensed Consolidated Financial Statements as of June 30, 2016.

The Group’s reporting currency for the presentation of the Consolidated Financial Statements is the Euro. Unless otherwise specified, the figures in the statements and within these Notes to the Consolidated Financial Statements are expressed in thousands of Euro.

The Group presents its Consolidated Statements of Income using the function of expense method. The Company presents current and non-current assets and current and non-current liabilities as separate classifications in its consolidated statements of financial position. This presentation of the Consolidated Statements of Income and of the Consolidated Statements of Financial Position is believed to provide the most relevant information. The Consolidated Statements of Cash Flows was prepared and presented utilizing the indirect method.

The Financial Statements were prepared using the historical cost convention, with the exception of certain financial assets and liabilities for which measurement at fair value is required.

The Group applied CONSOB resolution n. 15519 dated July 27, 2006 and CONSOB communication n. 6064293 dated July 28, 2006, which defines non-recurring transactions as events which do not occur frequently in the ordinary course of business.

The preparation of this report required management to use estimates and assumptions that affected the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, and the actuarial calculations necessary to calculate certain employee benefits liabilities, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, unless there are indicators which require updates to estimates.

3. NEW ACCOUNTING PRINCIPLES

3. NEW ACCOUNTING PRINCIPLES (Continued)

Amendments to IAS 19—Defined Benefit Plans: Employee Contributions. The amendment reduces current services costs for the period by contributions paid by employees or by third parties during the period that are not related to the number of years of service, instead of allocating these contributions over the period when the services are rendered.

Annual Improvements to IFRSs—2010-2012 Cycle. The amendments adopted impact: (i) IFRS 2, clarifying the definition of “vesting condition” and introducing the definitions of conditions of service and results; (ii) IFRS 3, clarifying that obligations that correspond to contingent considerations, other than those covered by the definition of equity instrument, are measured at fair value at each balance sheet date, with changes recognized in the income statement; (iii) IFRS 8, requiring information to be disclosed regarding the judgments made by management in the aggregation of operating segments that describes how the segments have been aggregated and the economic indicators that have been evaluated in order to determine that the aggregated segments have similar economic characteristics; (iv) IAS 16 and IAS 38, clarifying the procedures for determining the gross carrying amount of assets when a revaluation is determined as a result of the revaluation model; and (v) IAS 24, establishing the disclosures to be provided when there is a related party entity that provides key management personnel services to the reporting entity.

Amendments to IFRS 11—Accounting for Acquisitions of Interests in Joint Operations. The amendments advise on how to account for acquisitions of interests in joint operations.

Amendments to IAS 1—Disclosure Initiative. The amendments concern materiality, the aggregation of items, structure of the notes, information about accounting policies and the presentation of other comprehensive income arising from the measurement of equity method investments.

Amendments to IAS 27—Equity Method in Separate Financial Statements. The amendments clarify that an entity can apply the equity method to account for investments in subsidiaries, joint ventures and associates in its separate financial statements retrospectively.

Amendments to IAS 16 and 38—Clarification of Acceptable Methods of Depreciation and Amortization. The amendments clarify the use of the “revenue based methods” to calculate the depreciation of a building.

Annual Improvements to IFRSs—2012-2014 Cycle. The amendment modify: (i) IFRS 5, clarifying that the reclassification of an asset (or disposal group) from held for sale to held for distribution (or vice versa) should not be considered as a change in the original disposal plan; (ii) IFRS 7, clarifying that the offsetting disclosures are not applicable to condensed interim financial statements unless they provide a significant update to the disclosure included in the most recent annual financial statements, and excluding the presumption that the right to earn a fee for servicing a financial asset is generally continuing involvement and specifying that the entity should define the nature of the fee in accordance with the guidance of IFRS 7, (iii) IAS 19, clarifying that the depth of the market for high-quality corporate bonds should be assessed based on the currency in which the bond is denominated as opposed to the country in which the bond is located (in case a deep market of high-quality corporate bonds in a specific currency does not exist, corporate bonds should be considered), and (iv) IAS 34, clarifying that the required disclosures should be included either in the interim financial report or by cross-reference to other sections

of the interim report (i.e. the management report). The disclosure included in the interim report should be available at the same time as the interim financial report.

New standard and amendments that are effective for the reporting periods beginning after January 1, 2016 and not early adopted by the Group.

The Group is assessing the full impact of the new and amended accounting standards and interpretations on its consolidated financial statements.

Amendments to IFRS 10, IFRS 12 and IAS 28—Investment Entities: Applying the Consolidation Exception. The amendments provide clarification of the application of the exception to consolidation of investment entities. The amendments will be applicable after the European Union endorsement, which has not yet occurred as of the date this Financial Report was authorized for issue.

Amendments to IAS 12—Recognition of Deferred Tax Assets on Unrealized Losses. The amendments provide clarifications on the recognition of deferred tax assets on debt instruments measured at fair value. The amendments are applicable to periods beginning on or after January 1, 2017 unless changed after the European Union endorsement, which has not yet occurred as of the date this Financial Report was authorized for issue.

Amendments to IAS 7—Disclosure Initiatives. The amendments will require entities to provide disclosures that enable investors to evaluate changes in liabilities arising from financing activities, including changes arising from cash flows and non-cash changes. The amendments are applicable to periods beginning on or after January 1, 2017 unless changed after the European Union endorsement, which has not yet occurred as of the date this Financial Report was authorized for issue.

IFRS 15—Revenue from Contracts with Customers. The new standard will be effective for the first interim period within the annual reporting periods beginning on or after January 1, 2018. This standard replaces IAS 18—*Revenues*, IAS 11—*Construction Contracts*, IFRIC 13—*Customer Loyalty Programs*, IFRIC 15—*Agreements for Constructions of Real Estate*, IFRIC 18—*Transfers of Assets from Customers* and SIC 31—*Revenue—Barter Transactions Involving Advertising Services*. Revenue is recognized when the customer obtains control over goods or services and, therefore, when it has the ability to direct the use of and obtain the benefit from them. If an entity agrees to provide goods or services for consideration that varies upon certain future events occurring or not occurring, an estimate of this variable consideration is included in the transaction price only if highly probable. The consideration in multiple element transactions is allocated based on the price an entity would charge a customer on a stand-alone basis for each good or service. Entities sometimes incur costs, such as sales commissions, to obtain or fulfill a contract. Contract costs that meet certain criteria are capitalized as an asset and amortized as revenue is recognized. The standard also specifies that an entity should adjust the transaction price for the time value of money in case the contract includes a significant financing component. IFRS 15 is applicable to periods beginning on or after January 1, 2018 unless changed after the European Union endorsement.

Clarifications to IFRS 15—Revenue from contracts with customers. The objective of the document is to clarify the guidance in IFRS 15 in respect of issues arising from the discussions of the Transition Resource Group for Revenue Recognition (TRG). The clarifications are applicable to periods beginning on or after January 1, 2018 unless changed after the European Union endorsement.

3. NEW ACCOUNTING PRINCIPLES (Continued)

IFRS 9—Financial instruments. This standard was issued in July 2014. The final version of IFRS 9 brings together the classification and measurement, impairment and hedge accounting phases of the IASB's project to replace IAS 39—*Financial instruments: recognition and measurement*. IFRS 9 introduces new requirements for classifying and measuring financial assets. The new standard reduces to three the number of categories of financial assets pursuant to IAS 39 and requires that all financial assets be: (i) classified on the basis of the model which a company has adopted in order to manage its financial activities and on the basis of the cash flows from financing activities; (ii) initially measured at fair value plus any transaction costs in the case of financial assets not measured at fair value through profit and loss; and (iii) subsequently measured at their fair value or at the amortized cost. IFRS 9 also provides that embedded derivatives which fall within the scope of IFRS 9 must no longer be separated from the primary contract which contains them and states that a company may decide to directly record—within the consolidated statement of comprehensive income—any changes in the fair value of investments which fall within the scope of IFRS 9. The new model introduced by IFRS 9 eliminates the threshold for the recognition of expected impairment losses, so that it is no longer necessary for a trigger event to have occurred before impairment losses are recognized, and requires an entity to recognize expected impairment losses at all times and to update the amount of expected impairment losses at each reporting date to reflect changes in the credit risk of the financial instrument. IFRS 9 contains a three-stage approach to account for impairment losses. Each stage dictates how an entity measures impairment losses. IFRS 9 aligns hedge accounting with risk management activities undertaken by companies when hedging their financial and non-financial risk exposures. The new standard enables an entity to use information produced internally as a basis for hedge accounting. The standard is not applicable until January 1, 2018, unless changes after the European Union endorsement which has not yet occurred as of the date this Financial Report was authorized for issue.

IFRS 16—Leases. The standard replaces IAS 17 “Leases” and requires all leases to be recorded on the balance sheet as assets and liabilities. IFRS 16 is applicable to periods beginning on or after January 1, 2019 unless changes after the European Union endorsement which has not yet occurred as of the date this Financial Report was authorized for issue. An entity can apply IFRS 16 before that date but only if it also applies IFRS 15 “Revenue from contracts with customers”.

Amendments to IFRS 10 and IAS 28—Sale or Contribution of Assets between an Investor and its Associate or Joint Venture. These amendments clarify the accounting treatment in relation to profits or losses arising from transactions with joint ventures or associates accounted for using the equity method. The application date has not yet been defined.

Due to the this change in the governance structure, the Executive Chairman became the CODM assisted in his role by the CEO of Products and Operations. This change did not impact the operating segments as the information provided and reviewed by the CODM has not changed.

8. INVENTORIES (Continued)

The increase in inventories of Euro 16.2 million is mainly due to finished products which went up in order to improve the quality of the customer experience by having at any time finished product inventory levels in line with customer demand, and was partially offset by an increase in the inventory obsolescence reserves of Euro 15.4 million mainly to align the inventory to its aging.

9. OTHER CURRENT ASSETS

The decrease in other financial assets of Euro 9.8 million is mainly due to the sale of the aircraft owned by Luxottica Leasing which was classified as an asset held for sale as of December 31, 2015.

The change in other assets is mainly driven by the decrease in income tax receivables of Euro 23.7 million, mostly related to the US subsidiaries' of the Group, and partially offset by the increase in prepaid expenses of Euro 17.0 million related to rent payments for the North America retail operations and to the payment of royalties.

Accounts payable were Euro 898.0 million as of June 30, 2016 (Euro 927.2 million as of December 31, 2015). The decrease in accounts payable is primarily due to timing of the payment made by the Group partially offset by the weakening of certain in which the Group operates.

The carrying value of accounts payable is approximately equal to their fair value.

18. INCOME TAXES PAYABLE

The balance is detailed below:

In order to determine the fair value of financial instruments, the Group utilizes valuation techniques which are based on observable market prices (Mark to Model). These techniques therefore fall within Level 2 of the hierarchy of Fair Values identified by IFRS 13—*Fair Value*.

IFRS 13 refer to valuation hierarchy techniques that are based on three levels:

- Level 1: Inputs are quoted prices in an active market for identical assets or liabilities;

**Notes to the
CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
AS OF JUNE 30, 2016**

21. LONG-TERM DEBT (Continued)

- Level 2: Inputs used in the valuations, other than the prices listed in Level 1, are observable for each financial asset or liability, both directly (prices) and indirectly (derived from prices); and
- Level 3: Unobservable inputs used when observable inputs are not available in situations where there is little, if any, market activity for the asset or liability.

The Group determined the fair value of the derivatives existing on June 30, 2016 through valuation techniques which are commonly used for instruments similar to those traded by the Group. The models applied to value the instruments are based on a calculation obtained from the Bloomberg information service. The input data used in these models are based on observable market prices (the Euro and USD interest rate curves as well as official exchange rates on the date of valuation) obtained from Bloomberg.

As of June 30, 2016 the Group did not have any Level 3 fair value measurements.

The following table summarizes the financial assets and liabilities of the Group valued at fair value (in thousands of Euro):

Total minimum guaranteed payments under this guarantee were Euro 5.2 million (USD 5.8 million) at June 30, 2016 Euro 7.8 million at December 31, 2015. The commitments provided for by the guarantee arise if the franchisee cannot honor its financial commitments under the lease agreements. Litigation

French Competition Authority Investigation

Our French subsidiaries Luxottica France S.A.S.U., Alain Mikli International S.A.S.U. and Mikli Diffusion France S.A.S.U., together with other major competitors in the French eyewear industry, have been the subject of an investigation conducted by the French Competition Authority (the "FCA") relating to pricing and sales practices in such industry. The investigation is ongoing. In May 2015, the Company received a Statement of Objections from the FCA. This document contains the FCA's preliminary position on alleged anti-competitive practices and it does not prejudice its final decision.

In August 2015, the Company filed detailed responses to the Statement of Objections. During 2016, the FCA requested additional information, as is typical in this type of proceeding. In July 2016, the FCA issued a report responding to the observations submitted by the companies involved in the investigation. Luxottica is evaluating the FCA's position contained in the report and maintains that it has valid defenses

to the FCA's claims and intends to vigorously defend against the FCA's allegations. Notwithstanding this position, based on the stage of this regulatory matter and additional facts that have recently come to its attention Luxottica has concluded that a liability may be probable and therefore has accrued a provision.

If the FCA concludes that there was a violation, it will impose a fine, which may be contested and appealed in court. Such fine, assuming it was upheld by the court, could exceed the amount accrued by Luxottica and could have a material effect on the Company's results of operations and financial condition.

Considering the ongoing complex proceeding, it is difficult to predict the timing of the conclusion of the proceeding and the imposition of any fine, which could occur at some point in 2016 or beyond.

Other proceedings

The Company and its subsidiaries are defendants in various other legal and fiscal lawsuits arising in the ordinary course of business. It is the opinion of the management of the Company that it has meritorious defenses against all such outstanding claims, which the Company will vigorously pursue, and that the outcome of such claims, individually or in the aggregate, will not have a material adverse effect on the Company's consolidated financial position or results of operations.

29. RELATED PARTY TRANSACTIONS

Licensing Agreements

The Group executed an exclusive worldwide license for the production and distribution of Brooks Brothers brand eyewear. The brand is held by Brooks Brothers Group, Inc. ("BBG"), which is owned and controlled by Claudio Del Vecchio, a son of the Company's Executive Chairman and majority stockholder. The license expires on December 31, 2019. Royalties paid under this agreement to BBG were Euro 0.5 million during the first six month of 2015 and Euro 0.5 million in 2015. Management believes that the terms of the license agreement are fair to the Company.

Technology Advisory Agreements

The Company and certain of its subsidiaries entered into transactions with entities owned or controlled by Mr. Milleri, Deputy Chairman of the Company since April 29, 2016, primarily related to the implementation of the Group's IT platform. Amounts related to these transactions were Euro 7,1 million in the first six months of 2016. On April 26, 2016 the Company also signed a two-year master agreement with the companies owned or controlled by Mr. Milleri for services related to the Group's IT platform with a total value of approximately Euro 20 million. Management believes that the terms of the above agreements are fair to the Company.

Lease of corporate offices

On April 29, 2014, the Board of Directors of Luxottica Group authorized the Company to enter into an agreement to lease a building located in Piazzale Luigi Cadorna 3, Milan. The lease will be for a period of seven years and 5 months and will be renewable for an additional six years. The building is owned by Beni Stabili SIIQ S.p.A., which through Delfin S.à.r.l, is ultimately controlled by the Company's Chairman Leonardo Del Vecchio and therefore the lease agreement is a transaction with related parties. In accordance with the procedure on related parties adopted by the Company and Consob regulation n. 17221/2010 and in light of the contract balance, the agreement qualifies as a minor transaction with related

parties. On September 30, 2014, the Risk and Control Committee, solely composed of independent directors, unanimously expressed a favorable opinion regarding the Company's interest in entering into this transaction as well as on the convenience and fairness of the related conditions. In the first six months of 2016 the Company incurred an expense for the lease of the building of Euro 2.4 million (Euro 1.9 million in the same period of 2015).

REVIEW REPORT ON CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

To the Shareholders of
Luxottica Group SpA

Foreword

We have reviewed the accompanying condensed consolidated interim financial statements of Luxottica Group SpA and its subsidiaries (“Luxottica Group”) as of 30 June 2016 and for the six-month period then ended, comprising the statement of financial position, the statement of income, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows and the related notes. The Directors of Luxottica Group SpA are responsible for the preparation of the condensed consolidated interim financial statements in accordance with International Accounting Standard 34 applicable to interim financial reporting (IAS 34), as adopted by the European Union. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our work in accordance with the criteria for a review recommended by Consob in Resolution No. 10867 of 31 July 1997. A review of condensed consolidated interim financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than a full-scope audit conducted in accordance with International Standards on Auditing (ISA Italia) and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the condensed consolidated interim financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements of the Luxottica Group as of 30 June 2016 and for the six-month period then ended are not prepared, in all material respects, in accordance with International Accounting Standard 34 applicable to interim financial reporting (IAS 34), as adopted by the European Union.
